

## Other Support

Provide active support for all key personnel. **Other Support includes all financial resources, whether Federal, non-Federal, commercial or institutional, available in direct support of an individual's research endeavors, including but not limited to research grants, cooperative agreements, contracts, and/or institutional awards.** Training awards, prizes, or gifts do not need to be included.

There is no "form page" for other support. Information on other support should be provided in the *format* shown below, using continuation pages as necessary. **Include the principal investigator's name at the top and number consecutively with the rest of the application.** The sample below is intended to provide guidance regarding the type and extent of information requested.

For instructions and information pertaining to the use of and policy for other support, see Other Support in the PHS 398 Part III, Policies, Assurances, Definitions, and Other Information.

<b>Format:</b>		
<b>NAME OF INDIVIDUAL</b>		
<b>ACTIVE/PENDING</b>		
Project Number (Principal Investigator) Source	Dates of Approved/Proposed Project Annual Direct Costs	Person Months (Cal/Academic/Summer)
Title of Project (or Subproject) The major goals of this project are...		

**OVERLAP** (summarized for each individual)

Note effort devoted to projects must now be measured using person months. Indicate calendar, academic, and/or summer months associated with each project.

**Sample:**

**ANDERSON, R.R.**

**ACTIVE**

2 R01 HL 00000-13 (Anderson) NIH/NHLBI	3/1/1997 – 2/28/2002 \$186,529	3.60 calendar
---	-----------------------------------	---------------

Chloride and Sodium Transport in Airway Epithelial Cells

The major goals of this project are to define the biochemistry of chloride and sodium transport in airway epithelial cells and clone the gene(s) involved in transport.

5 R01 HL 00000-07 (Baker) NIH/NHLBI	4/1/1994 – 3/31/2002 \$122,717	1.20 calendar
--	-----------------------------------	---------------

Ion Transport in Lungs

The major goal of this project is to study chloride and sodium transport in normal and diseased lungs.

R000 (Anderson) Cystic Fibrosis Foundation	9/1/1996 – 8/31/2002 \$43,123	1.20 calendar
---	----------------------------------	---------------

Gene Transfer of CFTR to the Airway Epithelium

The major goals of this project are to identify and isolate airway epithelium progenitor cells and express human CFTR in airway epithelial cells.

**PENDING**

DCB 950000 (Anderson) National Science Foundation	12/01/2002 – 11/30/2004 \$82,163	2.40 calendar
--	-------------------------------------	---------------

Liposome Membrane Composition and Function

The major goals of this project are to define biochemical properties of liposome membrane components and maximize liposome uptake into cells.

**OVERLAP**

There is scientific overlap between aim 2 of NSF DCB 950000 and aim 4 of the application under consideration. If both are funded, the budgets will be adjusted appropriately in conjunction with agency staff.
