

It may take more energy, but

— JUNE, BREAST CANCER SURVIVOR

# it's worth it.

June, who was born with cerebral palsy, knows first-hand that we're not immune to breast cancer just because we live with a disability. She tells us to ask for an accessible screening and not let the system decide what's best.

Finding her cancer early allowed June to go on with her life. Screening allowed her to take control. If you're over 40, check your breasts regularly, and have a mammogram and a clinical exam every 1–2 years. For more information, visit [www.cdc.gov/RightToKnow](http://www.cdc.gov/RightToKnow) or call 1–800–CDC–INFO (232–4636); 1–888–232–6348 (TTY).
