

The Image Council has named Sherry Oldner, RNIV, Weekend Option, F8, Medical Subspecialties the Outstanding Nurse of the Month for February. Sherry obtained her Associate and Baccalaureate degrees from U of A at Monticello and an MBA from UALR. Prior to UAMS, she worked at Delta Memorial Hospital in Dumas, Jefferson Regional in Pine Bluff and the Dumas Nursing Center. She has been with UAMS Nursing for the past nine and a half years on F8. She is also married with 3 children and is a member of the First Baptist Church. Sherry also enjoys cooking, gardening, riding bicycles, and reading.

Her favorite part about being a nurse is “having an ever changing learning environment.” When asked what keeps her in nursing, she replied “Knowing that I make a difference for the people that I work with and the patients I help take care of.” She gives credit for being inspired to nurse to “other nurses with goal oriented career paths who make a difference in health care.”

Mrs. Oldner is not only an inspiration to her fellow coworkers but also her patients and is not surprise that she was nominated for the Outstanding Nurse of the Month. Sherry has made it her goal to “demonstrate leadership skills through a holistic approach when caring for patients and families; when interacting with her coworkers ; in addition to mentoring new nurses when opportunities present themselves.”

If you see Sherry around the hospital, please take a moment and give her a well deserved pat on the back for her dedication to our patients, their families and her coworkers. F8 is a challenging floor and she has excelled at anchoring the weekends for many years and no doubt overcame many tough challenges while providing comfort, hope and healing to our patients, families and co-workers.
