Quick Links Overview

The Quick Links tool is an accessibility feature that allows users to quickly locate any heading or section within any page in Blackboard and jump directly to it. It also lists any keyboard shortcuts that can be used for that page.

1. To access the Quick Links toolbar, click the icon in the top left of the screen or use the keyboard shortcut **SHIFT + ALT+L**.

2. The Quick Links window displays and lists all the headers and navigation links on the current page. Click any of the links to go directly to that item.
