

Directions

1. Under the **Teach**, Select your Wimba Classroom
2. Select **Room Settings**
3. Select **Portable Media Settings**
4. Choose the appropriate Settings
5. Select **Save**

Diagram

The diagram illustrates the navigation path through the Wimba Classroom interface. It starts with a 'Wimba Classroom' header containing icons for 'Add to Calendar', 'Add & Manage Content', and 'Room Settings'. A red arrow points to the 'Room Settings' link. Below this is a settings menu with expandable sections: 'Media Settings', 'Room Features', 'Chat Settings', 'Access Settings', and 'Portable Media Settings'. A red arrow points to the 'Portable Media Settings' section. A second red arrow points to the 'Save' button at the bottom of the 'Portable Media Settings' configuration panel. This panel includes options for 'Availability' (MP3 and MP4), 'MP4 Settings' (content selection), and 'Encoding Quality' (Low, Standard, High Quality).
