2. Click  in the upper right hand corner
3. Click Customize Page Display
4. Select preconfigured layout Template or choose Custom Layout and click 
(Note: for custom Layouts select setting)

Diagram

The diagram illustrates the process of customizing the layout in a software interface. It shows a sequence of steps with red arrows pointing to the corresponding UI elements:

- Step 1:** A red arrow points to the **Build** tab in the top navigation bar, which is highlighted in blue.
- Step 2:** A red arrow points to the **Page Options** menu icon in the upper right corner of the interface.
- Step 3:** A red arrow points to the **Customize Page Display** option in the dropdown menu that appears after clicking the Page Options icon.
- Step 4:** A red arrow points to the **Custom Layout** option in the list of layout templates below the dropdown menu.

The interface also shows other navigation options: **Add File**, **Create Folder**, and **Add Content Link** in the top bar, and a list of layout templates: **Layout 2**, **Layout 3**, **Layout 4**, **Layout 5**, and **Custom Layout**.
