

# Participant Area

**NetStats Indicator:** Indicates the connection strength of the user

**Yes/No Indicator:** A green check (yes) or red X (no) appears next to the user's name in instant polling.

**Hand Raising:** A number appears next to a user's name when they click the Hand Raise button below the participant list. The number indicates in which order participants raised their hands.

**Room Pulse:** Provides a live summary of all the user's responses such as Yes/No responses, Hand Raises and current status.

**Actions Menu:** Allows the presenter to disable and enable certain features for the entire class during a live session.

**Privileges:** Allows the presenter to disable and enable audio, video or text capabilities for individual participants during a live session. Also allows the presenter to promote/demote participants to or from presenter status during a live session.
