## Academic Spinal Cord Physiatrist

### OPPORTUNITY

The Department of Physical Medicine and Rehabilitation at the University of Arkansas College of Medicine is seeking a physiatrist board certified in spinal cord injury medicine to join the academic faculty. We are looking for a person interested in working with both inpatients and outpatients. Our outpatient services are located in the new Jackson T. Stephens Spine Institute and our inpatient services are located at Baptist Health Rehabilitation Institute.

### UNIVERSITY OF ARKANSAS FOR MEDICAL SCIENCES

The University of Arkansas for Medical Sciences (UAMS) is one of the leading academic health centers in the United States. UAMS has an excellent work environment and offers a generous benefit plan including fully paid medical, dental, and disability insurance, and a 10% match into a 403(b) plan. Faculty also receive 22.5 days of vacation and the department offers an additional five days of educational leave. The department also has a very competitive incentive plan in place that rewards clinical productivity, research activity, and academic participation.

### A BALANCE OF COUNTRY LIVING WITHIN THE CITY

The drawing area for UAMS is extremely large. The population of Arkansas is approximately 2.75 million, which includes 400,000 people within the Little Rock metropolitan area. Little Rock is small enough for a hometown feel, but large enough to offer city amenities. Arkansas has 600,000 acres of lakes, which provide plenty of opportunities for fishing, swimming, sailing, power-boating, scuba diving and more. Outdoor enthusiasts can hike our countless day trails, and enjoy extended excursions backpacking throughout the Ozark Highlands and the Ouachita National Recreation areas. One of Arkansas's newest landmarks is the Big Dam Bridge, which spans the Arkansas River, and is the longest pedestrian/bicycle bridge in the world built for that purpose. Little Rock has numerous cultural, historical, and entertainment venues, including the Arkansas Symphony Orchestra, the William J. Clinton Presidential Library and Museum, the River Market District, Arkansas Repertory Theatre, Ballet Arkansas, the Arkansas Arts Center and Wildwood Park. Add to these a high quality of life, a reasonable cost of living, and world-class medical facilities, and you'll be proud to call Arkansas home.
