JUNE 2007 S.T.A.R

Doris Farmer

Please join us in recognizing Doris Farmer as the June 2007 S.T.A.R. Award recipient. Doris has been part of the UAMS family for 25 years and currently holds the position of Lead Coordinator on the Pre-Registration Support Team in Hospital Admissions. She was nominated by her manager, Mica Dunn, who had this to share about her, “Doris is a hard worker and is ALWAYS willing to go the extra mile. Everyone in our department loves her and she always has the patient’s best interest in mind. In my opinion, Doris exhibits all of the qualities of a STAR Employee.” Being a quality team member who clearly demonstrates the 3 C’s: Care, Commitment, and Contribution have earned her this distinction. Congratulations Doris for being our shining star for the month.

Don’t forget to forward your nominations for the STAR Award to the RIS Team. Go to the RIST webpage to print a copy of the Nomination form and send it to us at Slot 618!

**You can find a copy of the nomination form at <http://www.uams.edu/rist/>

Updates and Reminders

Reminder - Liver Transplant Plan Codes

L81 Liver Acquisition – Non Medicare Patient

This code is only to be used as the second, third, etc. plan on the transplant workup accounts for patients without Medicare as their primary coverage. L81 will not be used as a primary plan code; the patient’s insurance coverage will come before L81.

For patients with Medicare primary, L80 will be the only plan code attached to the workup account.

See the [May 2007 Registration Alert](#) for more information about the Liver Transplant Plan Codes.

Educational Opportunity for United Healthcare Radiology Notification

UHC is hosting an open forum for physicians, practice administrators and other health care professionals to call in and learn about recent updates to the Radiology Notification program. Additionally, you will have the opportunity to participate in a general Radiology Notification program question and answer session.

These calls will begin on June 20, 2007, and take place every Wednesday until August 29. The weekly call will begin at 12 pm CST.

To participate in this weekly open forum, please dial 1-800-322-0222. No pass code is required.

Medipac Screen Changes in Patient Management

Sherry Nirenberg, IT Patient Systems

The Patient Management screens in MPAC are changing, specifically, the 'search parameters'. You'll see these changes in functions such as PATU/PATI, INVU/INVI, CPIU/CPII, VISU/VISI, HPII/HPIU and INHU. The current screens have UAMS-specific modifications; once we start using Registration Workstation, we will return to "base" product, and use the screens provided by McKesson.
