

# November S.T.A.R.

Striving Together, Achieving Results

## Catina Hill

It is with great pleasure for the STAR Committee to announce that the November STAR is Catina Hill of the Cardiology Clinic. Here are just a few reasons why Catina was selected as this month's STAR:

- Catina is wonderful to work with and is an asset to the Cardiology Clinic. She has a positive, upbeat attitude and always makes time to do a good job.
- Catina is a treasure! Never in my life have I met someone who is so devoted to working hard and doing a good job.
- While Catina was out on leave, RAS personnel who filled in for her were astonished at what she was able to do and keep up with at one time while maintaining a pleasant and calm demeanor.
- She is quick to greet the patients and practically knows all of the patients by name. Catina is always pleasant and friendly at all times. She is a joy to be around. She is a great lady!

Such high praise from those who know her best, makes Catina an easy choice for the November STAR.
