

October S.T.A.R.

Striving Together, Achieving Results

Paula Patrick

It is with great pleasure for the STAR Committee to announce that the October STAR is none other than Paula Patrick of the Department of Otolaryngology. She has been working with the ENT Clinic for 5 years and is currently serving the clinic as their Point of Service Coordinator. This October S.T.A.R. has been described, by those who know her, as “always pleasant, professional and hardworking”.

For her past time Paula, a mother of 2 children and a Chihuahua, enjoys fly fishing and remodeling her house. Paula likes to do her own remodeling, including tiling her fireplace and refinishing her kitchen cabinets. Obviously, this S.T.A.R. is a multi-talented individual who knows how make the most of her free time.

Please join us in congratulating Paula Patrick for the well -deserved honor of receiving October's S.T.A.R.
