

January S.T.A.R. Sharon Thompson

Sharon Thompson is the STAR for January. Sharon is one of the founding members of the newly created Pre-Registration Department and has contributed greatly to the success of the department. Sharon has worked for the Hospital for close to 27 years and has served UAMS in many different capacities. Her wealth of knowledge and experience is said to be one of her biggest assets as a UAMS employee.

But her accolades do not stop here, according to her manager Paul Rebsamen, "Sharon strives for excellence in all of her work. Whether it is the accurate entry of insurance information on a patient's account . . . or simply the complete and accurate documentation of her work at the end of the day on her work log, Sharon makes sure that tasks are not simply completed, she makes sure that they are completed well."

But most importantly, Sharon genuinely "CAREs" about all of the patients here at UAMS. This is evident in her pursuit to work tirelessly for the patient. And for this reason and others like it, we are honored to congratulate Sharon Thompson as this month's S.T.A.R.
